

Saurabh Singh

SOFTWARE ENGINEER

I am a dedicated Software Engineer at TransFi, driven by a strong passion for the world of cryptocurrencies. My current role involves leading a dynamic team in the creation of a state-of-the-art web application, designed to streamline the on-ramping and off-ramping of cryptocurrencies. With a commitment to innovation and excellence, I am keen to connect with fellow professionals who share a similar drive for continuous learning and development in this rapidly evolving field.
